

# Moltiplicazione e divisione

## 1. Completa le tabelle.

$\times$	0	1	10	100	1000
6					
32					
170					
2 531					

$:$	1	10	100	1000
38		/	/	/
520			/	/
7100				/
5 2000				

## 2. Scrivi le operazioni in colonna e calcola.

$231 \times 3 = \dots\dots\dots$

2	3	1	$\times$
		3	=
<hr/>			

$134 \times 2 = \dots\dots\dots$

			$\times$
			=
<hr/>			

$506 \times 6 = \dots\dots\dots$

			$\times$
			=
<hr/>			

$264 \times 4 = \dots\dots\dots$

			$\times$
			=
<hr/>			

$18 \times 33 = \dots\dots\dots$

			$\times$
			=
<hr/>			
			+
		0	=
<hr/>			

$146 \times 25 = \dots\dots\dots$

			$\times$
			=
<hr/>			
			+
		0	=
<hr/>			

$118 \times 42 = \dots\dots\dots$

			$\times$
			=
<hr/>			
			+
		0	=
<hr/>			

$208 \times 62 = \dots\dots\dots$

			$\times$
			=
<hr/>			
			+
		0	=
<hr/>			

## 3. Scrivi le divisioni in colonna e calcola.

$86 : 2 = \dots\dots\dots$

8	6	2
<hr/>		

$128 : 4 = \dots\dots\dots$

<hr/>		

$540 : 23 = \dots\dots\dots$

<hr/>		

$172 : 64 = \dots\dots\dots$

<hr/>		

$75 : 25 = \dots\dots\dots$

<hr/>	

$132 : 11 = \dots\dots\dots$

<hr/>		

## 4. Calcola e applica la proprietà commutativa come prova.

$8 \times 3 = 24 \rightarrow 3 \times 8 = \dots\dots\dots$

$11 \times 2 = \dots\dots\dots \rightarrow \dots \times \dots = \dots\dots\dots$

$20 \times 2 = \dots\dots\dots \rightarrow \dots \times \dots = \dots\dots\dots$

$10 \times 7 = \dots\dots\dots \rightarrow \dots \times \dots = \dots\dots\dots$
